SUSPENSION OF SPECIE PAYMENTS.—The crisi

USPENSION OF SPECIE PAYMENTS.—The crisis has now arrived to test the merits of the cash system, for however flattering the credit system may appear on paper; its effects upon individuals often prove ruinous in the extreme. In London and Paris, the consumers have set their face against it, and consequently, a number of establishments have sprung up of late years that do a cash business only. This has been termed by some the European system, and has but recently been introduced into New York.

PHILLIPS, of 106 William street, does not claim for himself the honor of its introduction, but he does believe that he carries it out to a greater extent than any of his rivals. For instance, they content themselves with purchasing for cash of the jobbers, tow he remits funds to Europe, to buy of the manufacturers direct, thereby avoiding all those accumulated profits which enhance the value of articles before they reach the customer. The extensive patronage he has been honored with, must be a sufficient voncher of public opinion, as to the way he carries out his assertion of producing a first rate garment, cut in a superior style and made by none but the most finished workmen. He effects a saving of 38 per cent on the prices charged by houses who profess to furnish the best goods, and he does this not withstanding the sureriority of his style and elegance of his garments. Phillips will also warrant his coats to be equal to any mode in Brondway, and he considers them the lairest standard by which a comparision can be instituted.

N. B.—Ail goods paid for on derivery, and no gentleman expected to take any garments when any reasonable objection exists. A call solicited at 106 William corner of John street.

This is to certify that a young man, whom I have been self quainted with for some time, and after spending nine months in an eye infirmary was discharged by the Physicians of the Institution, with what they termed an incurable Cataract, so then be was searly blind; a trial of Dr. J. Francis's remedy, three bot tles only being used, removed it to the surprise of all who knew him, and now he can see with that eye as well as ever he did. I feel it my duty to give this information for the penelit of the public.

The Rev. J. Harrison 44 Thompson Street having procured a bottle of the above for Mrs. Harrison's eyes, says—to my actonishment, it has removed the dimness and pain, which had been excessive for years—she had used many different eye waters, but they all failed, therefore, I hope the public will seen

Mrs. McCaffrey, 16 Cherry street. This is to certify, that I war afflicted with a continual weeping of soalding water from my eyes for several months; many remedies were applied without affording me the smallest relief, and I thought should have been blind; I applied Dr. Francis' remedy, and after using one bottle, I can truly say, it saved me from absolute blindness.

This is to certify that my son had been afflicted with sore eyes for five years, during which time several remedies had been used without any good effect being derived, and in consequence of the great weakness of his sight, was obliged to keep him entirely from the benefit of education, and after the use of two or three small bottles of Dr. Francis' invaluable eye water he has been completely cured, and is to be seen at my residence, 38 Frankford street, New York.

This is to make known that I have for some years been afticted with what Physicians call Chronic Inflammation, consisting in weakness and reduces in my eyes, and that by the application of one bottle of Dr. Francis's Eye Water, my inflammation cessed; I therefore feel it my duty to commend this liquid as a safe and unparalleled remedy to all persons afficted with optic diseases. In case of any verbal information being required on this statement, inquire for me, at 32 Liberty street, New York.
